

Nina Dobson
(joint owner of
the Quayside
Cafe) is voting for
Sally on 19 May

Nina Dobson says:

"Sally is just the sort of reliable person we need to represent us on the City Council. She understands the needs of our rural communities and she gets things done"

A MESSAGE FROM SALLY MADDOCKS

"I live in Glasson Dock with my husband and our dog, Harry. I'm a proud step-parent to four children and two grandchildren.

I worked in Lancaster City Council's planning department for 14 years, and later as a community development manager in the charity sector. At 53 I was diagnosed with breast cancer, and retired early while I was recovering from that. I'm now using my professional skills to give back to my local community.

I have lots of experience of helping local residents and businesses to access services and overcome problems. I have had many successes - but I will be able to achieve even more if you elect me as your City Councillor.

This by-election is happening because a Tory councillor did not attend any Council meetings for six months. Ellel residents deserve better. I work hard and get things done!"

**Green City & County
Councillor
Gina Dowding**

Gina Dowding says:
"I worked with Sally when she was a Council officer, and more recently in her role as a community campaigner. I know that she would make a fantastic councillor. Please vote for Sally!"

Promoted on behalf of Sally Maddocks (Green Party) by Anne Chapman,
c/o 12A Derwent Road, Lancaster LA1 3ES.

VOTE FOR SALLY MADDOCKS

ACTIONS SPEAK LOUDER THAN WORDS
VOTE SALLY MADDOCKS

CLEAN SPACES

Sally got a bigger bin installed at a popular snack bar in Glasson, and got preventative measures at East Quay to help deter rats. She regularly picks up litter while walking her dog.

ACTION ON SPEEDING

Greens successfully campaigned for 20 mph speed limits in urban residential areas across Lancashire. Sally supports action to reduce speeds in villages like Dolphinholme.

ACCESSIBLE HEALTHCARE

Sally has helped local residents to access the services they need. Greens have campaigned to save vital local health and social care provision.

SUPPORTING TOURISM

Sally led a petition for a better parking payment system in Glasson - the mobile app was driving visitors away or to tears!

SAFER PLAY AREAS

Sally got the Council to remove a slip hazard at a local play park.

GREENS LEADING THE COUNCIL

Sally works with the group of 10 Green Councillors, including Green Council Leader Caroline Jackson - getting things done for people and the planet.

LABOUR AND CONSERVATIVES ARE NOT LISTENING ON BAILRIGG GARDEN VILLAGE

Sally says: "Like many Ellel residents, I am very concerned about the prospect of around 9,000 new houses being built between South Lancaster, Galgate and Conder Green.

It will be environmentally disastrous. There is no evidence of housing need on such a massive scale in this area. It is very risky for council tax-payers because of the large gap between government funding available and the actual cost of the infrastructure to support such a large development.

Green councillors voted against the plans at a crucial Council meeting last August, but Labour and most of the Conservatives voted them through, ignoring residents' concerns."

It's time to elect a Green councillor for Ellel. Only Sally and the Greens can be trusted to listen to residents and put your needs first.
