

SUE WORKS HARD FOR LOCAL RESIDENTS

Sue already has a great track record of working hard for the communities of Warton and Yealand:

- Sue has been an active member of Yealand Conyers Parish Council for several years. She gets involved in village clean-ups and is on the Village Hall Management Committee.
- Sue volunteers for Citizen's Advice.
- Sue set up the local 'crafternoon' group, bringing people together to be creative and sociable, and raise funds for charity.
- During the pandemic Sue volunteered with the Yealand Support Group to deliver low-cost, high-quality meals produced by the local pub.
- As a former Council Chief Planner, Sue understands the planning system and will aim to improve environmental standards for buildings, retain and improve green spaces, and encourage social housing.

Green Party City Council leader, Caroline Jackson, with Sue Tyldesley

Council Leader Cllr Caroline Jackson, a former head-teacher at Hornby High School, says:
“Sue is just the sort of reliable person we need on the City Council. She understands the needs of rural communities and she gets things done.”

Richard Bendall (Main Street, Warton) says:
“I’m really pleased that Sue is the local Green candidate. I know she will be an active councillor, who will represent us well.”

This by-election is happening because your Conservative councillor resigned suddenly from the City Council and the Conservative Party. It's time to go Green!

VOTE SUE TYLDESLEY

ACCESSIBLE HEALTHCARE

The 'New Hospitals Programme' aims to bring hospital buildings in Lancaster (RLI) and Preston up-to-date, but could mean big changes to where services are delivered. Sue said:

"I look forward to working with Green County Cllr Gina Dowding, a member of the Lancashire Health Scrutiny Committee, to ensure that rural communities in North Lancashire can access excellent services without having to travel too far. It is clear that the NHS needs more investment."

ACTION ON SPEEDING

Greens successfully campaigned for 20 mph speed limits in urban residential areas across Lancashire.

Sue will push for action to reduce speeds through Warton and Yealand villages.

SUPPORTING ARTS & TOURISM

Sue runs a small local arts practice and is part of the Silverdale and Arnside Art and Craft Trail, and the Loving Earth project which helps people to engage with the climate crisis creatively through textiles. See: www.lovingearth-project.uk

PROTECTING BIODIVERSITY

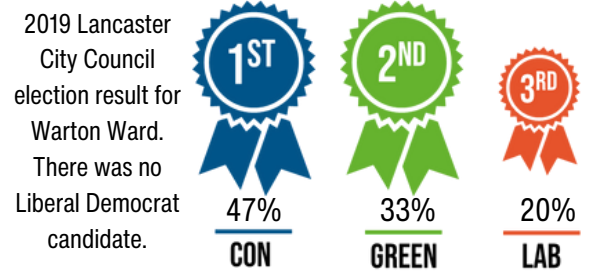

Sue knows how important it is to help birds, insects and other wildlife to thrive.

She worked with the Women's Institute on the Wildflower Verges project in the villages.

A MESSAGE FROM SUE TYLDESLEY

"I have the time, skills and local knowledge to do a good job as your City Councillor."

"I like what the Greens do and the way they work - listening and encouraging cross-party co-operation."

"Like so many of you, I am increasingly concerned about climate and ecological breakdown, and want to do what I can to help everyone live more sustainably."

"I am worried too about the cost of living crisis and its impacts on local people. I want to find ways to support people which do not worsen the climate crisis."

"I will keep you informed with regular newsletters. Feel free to contact me, and I will do my best to help."

GREENS LEADING THE COUNCIL

If elected, Sue will join the group of 14 Green City Councillors, including Green Council Leader Caroline Jackson (left).
