## Scotland Bans Fracking

People concerned about the risks of the Shale Gas industry have welcomed the decision by the Scottish Government to ban fracking. Cllr Gina Dowding said: *"Our Government seems to be too hand in glove with the industry to objectively look at the serious risks. To be viable this industry will need hundreds of wells across Lancashire and the area under Cockerham and Thurnham has already been licensed for shale gas exploration."* A Fylde Farmer speaks of his views and experience on You Tube: See this link: <http://bit.ly/2iFY5nf>
