

Green News in Brief

Call for a more Community-led Canal Corridor Plan

The Greens outlined alternative plans for a Council-led, phased regeneration scheme to revitalise the canal corridor area at a public meeting in March. Tim Hamilton-Cox who has scrutinised the changing plans of the City Council over the past decade says: *“As more shoppers switch to the internet, its time to stop relying on a big developer and retail-led development and for the council to take back control and base the plans on community wishes and prudent finance.”* The Greens will now present this option at a city council meeting.

Art in Lancaster

Glasson-based couple Roy Smith and

Kath MacDonald have set up **King Street Studios**, 5a King Street (opposite Waterstones, upstairs) Art exhibitions, something different every month, or try a creative art class or workshop. For more info call 07743238663 or see www.kingstreetstudios.art

United Resistance against fracking: Residents in the Fylde who are trying to protect their communities and environment against fracking are calling on people across Lancashire to join them at the gates of the site for three-months of concerted action from 2nd April. See the face-book page United Resistance or contact Gina to find out more.
